## What is Otafest Lite

Otafest-lite is a 1 day anime festival held at the University of Calgary on Saturday, November 13th, 2010. It will be similar to the Otafest you know and love, except that it will be on a much reduced scope. While Otafest spanned multiple buildings at the University and offered 5 rooms of AV programming, a large vendors hall, an artist alley, and over 80+ individual panels, contests and other special events, Otafest-lite will be held solely in the Science Theatres at the University and feature 3 rooms of AV programming, a small area for vendors and artists and roughly 20 live events.

### Alberta Film Ratings G - PG - 14A - 18A - R - A

Alberta Film Classification is the Government of Alberta office responsible for rating films before they are shown to the public. Film Classification is part of the provincial Ministry of Culture and Community Spirit. Our mandate is to assist Albertans in making informed and responsible film choices. We function under the Amusements Act and Regulations of the Province of Alberta.

Movie ratings can help film patrons make informed decisions about what is appropriate viewing for themselves and their families. Film ratings help to ensure that older children and teens won't be viewing content intended for adults when they go to the movies.

Most films shown in public for an admission fee are assigned a classification, otherwise known as an age rating.

Specific content advisories or 'warnings' are often added as part of the classification. This alerts film patrons to potentially offensive material such as coarse

language, varying degrees of violence, and/or sexual content.

We consider a variety of elements that may be of concern to audiences, such as coarse language, sexual content, violence, or controversial subject matter. Considering the frequency, visual detail, intensity and context of these elements is essential to rating a film for public exhibition.

We determine each film's suitability for a specific age group based on current Community Standards. As such, we welcome feedback from film patrons regarding their thoughts, feelings and opinions about film ratings in Alberta. If you are interested in sharing your opinions about film ratings in Alberta, please contact us directly to share your concern.
